

PANGEA FOSSILS LTD.

To whom it may concern,

My name is Terry Ciotka and I am the owner of a world renowned fossil company providing dinosaurs and fossils to museums around the world. When I became the subject of a frivolous lawsuit in California I had to find council there. My first e-mail that went out on a Sunday was returned instantly by Mark Albert. Right away this started positively. After retaining Mark and his company we went through the long process of defending my company. Throughout the whole ordeal Mark was a true professional. While the other side was trying to play games, use tricks, lie etc. Mark never stooped to that level. He kept us on the right path the whole time and assured me it was the proper way to go. After a while it was very apparent he was correct. The other side eventually conceded their lawsuit and even wrote me a retraction. I can say with 100% confidence that anyone ever needing a true professional and one heck of an amazing lawyer, should never hesitate to call on Mark. He was there for me every step of the way, night and day and on weekends. He worked tirelessly for me and it was a real relief knowing he had my back.

Throughout this, his expertise and knowledge of everything was truly amazing. I am by no means any expert of the law, but Mark knew exactly what to do every step of the way and how to handle everything they threw at us in a professional manner.....he even became extremely knowledgeable about fossils and dinosaurs! If you want a lawyer who is a true professional, extremely knowledgeable about all aspects of the law but most importantly someone who will go to bat for you because they believe in you and not just for a pay check, Mark is **definitely** your guy. I am honoured to be able to write a testimonial for this man and will always recommend Mark Albert and Associates to anyone!!

Sincerely,

Terry - owner
