To Whom It May Concern,

It's my honor to share with you my experience working with Mark Albert and his team at Mark Anchor Albert & Assoc.

I've known Mark on a personal and professional level for over twenty years, proud to call him friend. Mark is a highly intelligent and talented attorney and has worked with us on several matters over the years.

Most recently, Mark worked with my company on a complex business litigation matter. We had a lot on the line, the outcome meant everything to us. We had worked with other law firms in the past where we had the all too familiar experience of just becoming "monthly billing" with no end in sight, and it was no different in this case. Mark cares deeply about his clients. He's not there about the billing. He's there to achieve the best outcome for his clients in the most efficient manner possible. He's very passionate and puts his "all" into his clients and the matter at hand. Mark handles himself in a most professional and eloquent manner; and is very tough when he needs to be. He doesn't back down on behalf of his clients, he pushes forward to get the job done.

Most importantly, in addition to his sharp legal mind, he's a creative thinker; he thinks out of the box to create solutions and successful outcomes for his clients. In our case, all of these qualities came together, with Mark and his team achieving a highly successful outcome in our matter, very handily. One of Marks' associates whom we worked with is Jason Riddick, who is a pleasure to work with and did incredible work under Mark's guidance.

For anyone, for any company who is dealing with a complex business matter, or something in general of a serious nature, I would strongly suggest you discuss your matter with Mark and his firm.
